

DIM C-BRAINS

15th October, 2023

Dear DIM C-Brains coordinators,

With this letter I would like to attest that I am a recipient of the ATIP-Avenir 2023 funding, which will fund my laboratory at the Paris Brain Institute, while I am an INSERM “Chargé de Recherche”.

I will be starting in both these positions in January 2024.

I have also applied to formally join the list of teams associated with the Doctoral School ED3C.

Although I do not currently have the “*Habilitation à Diriger des Recherches*” (HDR), I intend to apply for this in the coming months.

As an ATIP-Avenir fellow, I am eligible for a derogation to supervise a PhD candidate based on the rules of the ED3C and the Paris Brain Institute.

I thank you in advance for your consideration of this project.

Sincerely,

Nikolaos Karalis
